### About Me

---

I'm a passionate and results-driven Frontend Developer with hands-on experience building modern, responsive, and user friendly websites and interfaces. With a strong command of **HTML, CSS, JavaScript**, and modern frameworks like **React.js**, I specialize in crafting clean that delivers user experiences.

### Experience

---

#### Frontend Developer

Dec 2022 – Aug 2025

##### [Neo Coderz Technologies](#)

- Developed Single Page Applications (SPAs) with a focus on responsive web design using HTML5, CSS3 Grid & Flexbox, and media queries for mobile-first, cross-browser compatibility.
- Created dynamic, pixel-perfect, and interactive user interfaces using Bootstrap 5, jQuery, and GSAP for advanced animations.
- Contributed to frontend development in React.js on several projects, utilizing reusable components and managing state effectively.
- Delivered high-quality, maintainable code in collaboration with design and backend teams to meet tight deadlines and client specifications.
- Applied GSAP (GreenSock) in multiple projects to enhance user experience with smooth transitions, scroll-based animations, and timeline control.

#### Junior Frontend Developer

Aug 2022 - Nov 2022

##### [Dignexus Digital Marketing Agency](#)

- Designed and developed dynamic, responsive, and cross-browser compatible web pages using HTML5, CSS3, and Bootstrap 5.
- Worked closely with senior developers to implement clean and structured code based on UI/UX mockups.
- Ensured all web components were optimized for performance and mobile responsiveness.
- Gained hands-on experience in developing and maintaining frontend code for client websites across various industries.

### Projects

---

#### Vehicle dealership platform

- [autobedrijf-van-os](#) - Automotive site with a clean layout for vehicle listings
- [amracars.nl](#) - Vehicle dealership platform, optimized for speed and mobile users
- [morgeninternet.nl](#) - Corporate site and CMS platform for digital services
